Installations tips:
- The floor must be clean, dry and flat. Unroll the first strip on the floor (polymer side downwards and silver side upwards) and cut it to the size required using a cutter. Unroll on the floor and cut the second strip, which you lay edge-to-edge against the first.
- To guarantee a good result, it is essential to attach the layers to each other, using NOMA® PARKETT ADHESIVE & FIX (adhesive tape covered with aluminium for underlay). Where it meets the wall, stick part of the adhesive tape on the NOMA® PARKETT EXPERT BLACK SILVER ROLL and the other against the adjacent wall. Repeat steps and then fit the floor.
