Simply celestial... and totally off the wall!

we will succeed together

Heaven on Earth is simply doing what's fun

Whether it's your job or your hobby, if you're passionate about it you'll get more out of life. It's just the same at the end of the working day: you'll never be on your own for long in a trendy lounge. There are old friends and new acquaintances to meet up with – and before you know it, you're in the middle of planning some cool action. Forming contacts. A network. A loose community. And all in the flow of an evening. And if not, then at least the acoustics – and hopefully the decor too – will be pitch perfect.

A perfect interior sets the tone

A place to chill doesn't depend on sound alone. Service makes a difference, and drinks and nibbles too of course. An interior that approaches something quite ethereal now needs a convincing concept – decor included, so that the ambience fits perfectly. A little bit retro, avant-garde or even futuristic. Round or square, the basic shape variations provide depth to the mix. A 3D invitation to chill or simply unwind.

CIELO takes you to op art heaven

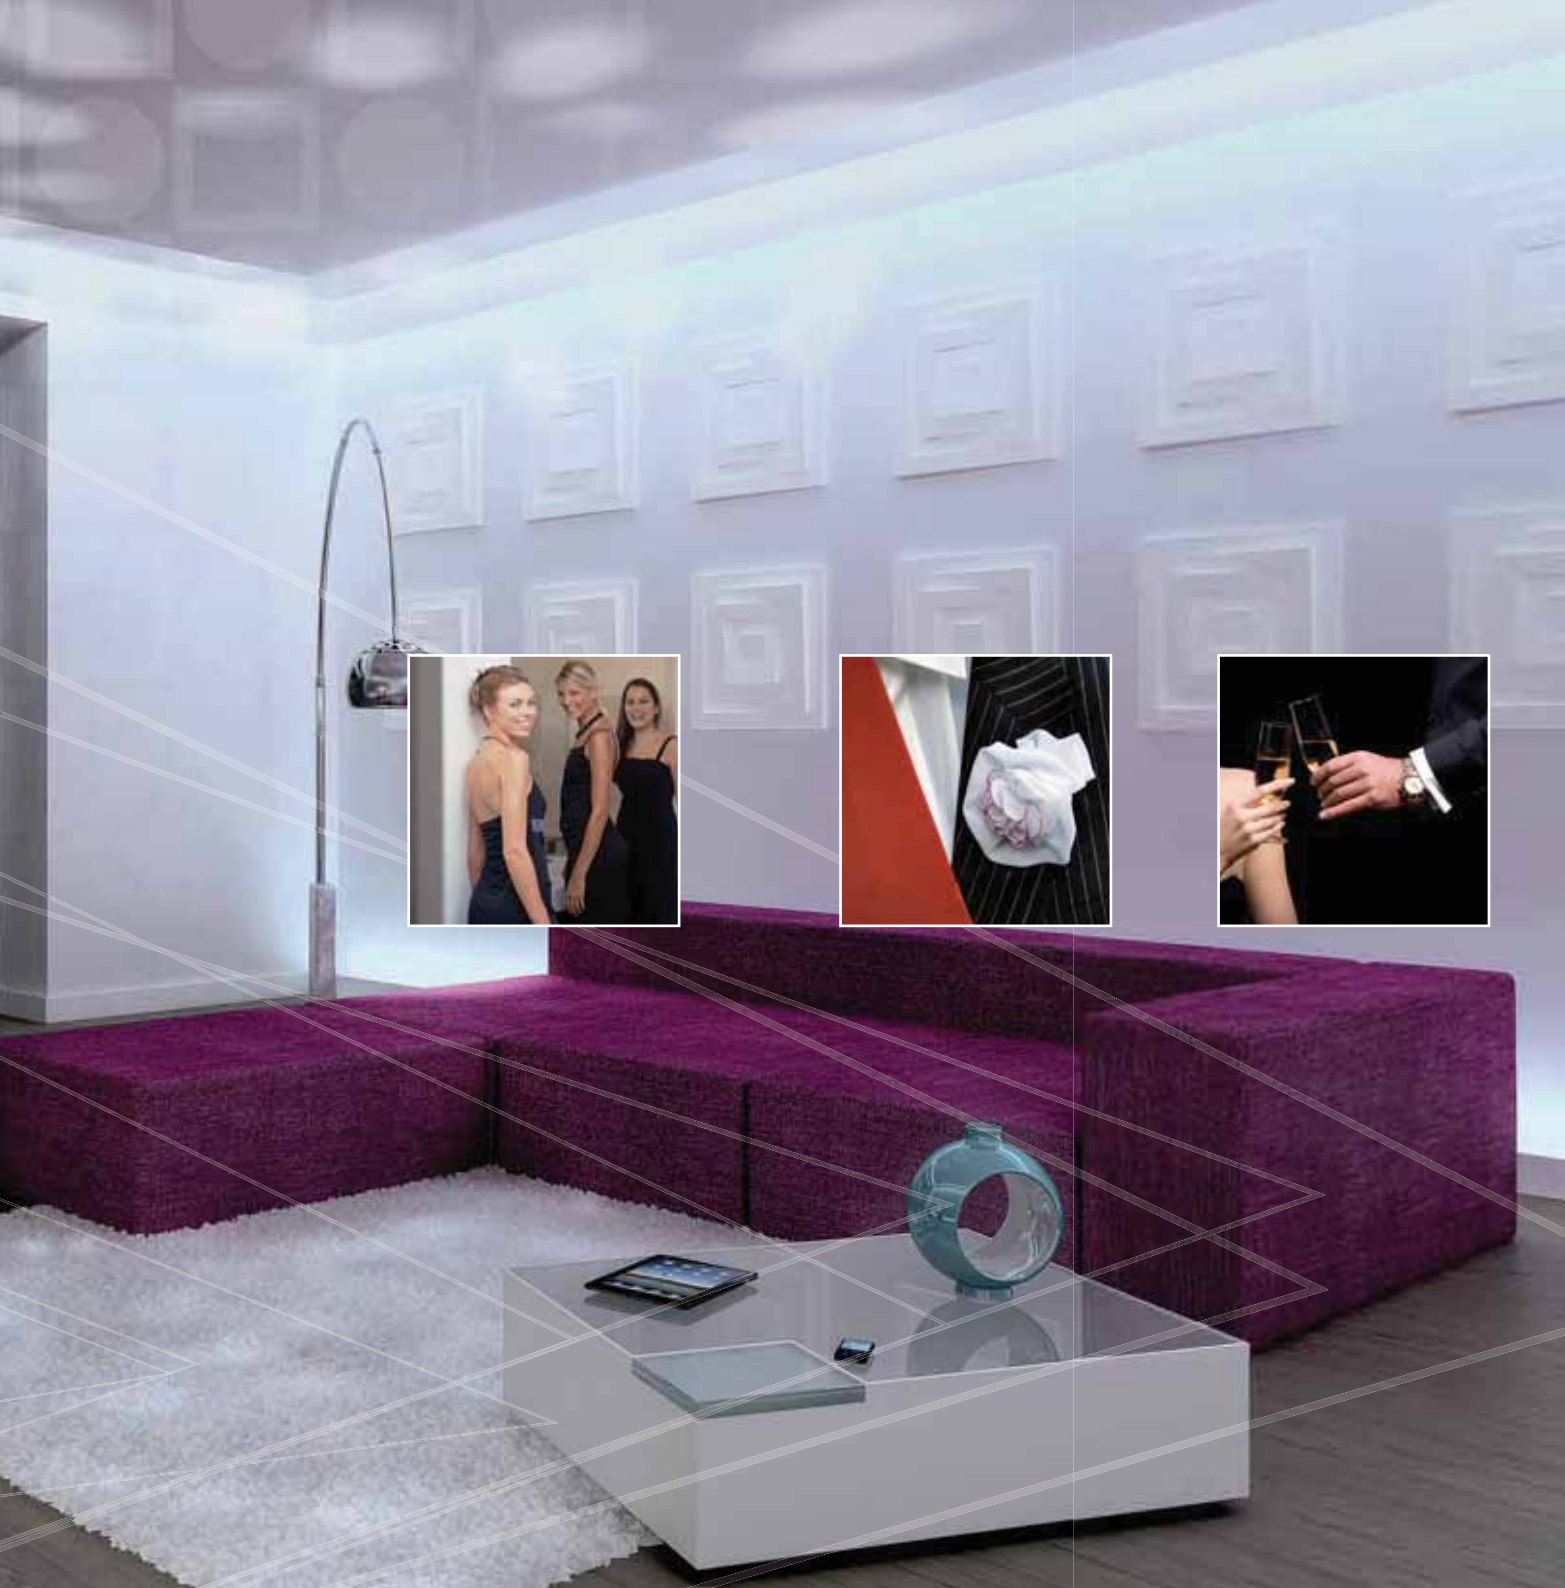

As a discerning owner, you'll want to be at least as trendy as your local bar. Don't we all just love to submerge ourselves in the zeitgeist - or even set the trends? Today, the best of every era is delightfully combined. One style that's especially on trend is 1960s Op Art. Its recurring geometric shapes form the basis for trendy interior design. CIELO is the exquisitely easy way to install op art elements. CIELO: the practical hard foam decor element for ceilings and walls.

Design by Martin Bogaers, Amsterdam.

CIELO – divinely simple – and simply divine to fit

Where space embraces design, CIELO is never far away. CIELO's hard foam roses are easy to fit. They're lightweight and ideal for wall and ceiling design. CIELO is available in two basic shapes: square (55 cm) and round (55 cm and 110 cm).

We have the form – you have the freedom

The key to great ambience lies in the air. The freedom for exclusive, independent interior design lies in CIELO. Two shapes, two formats and one stunning idea. For walls and ceilings. For now and tomorrow.
